SUPPLEMENTAL REISSUE APPLICATION DECLARATION  
BY THE INVENTORS

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

As a below named inventor, I hereby declare that:

My residence, mailing addressee and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if several names are listed below) of the subject matter which is described and claimed in United States Patent No. 6,316,725, granted November 13, 2001, and for which broadening reissue patent is sought on the invention entitled

HOUSINGS FOR UNDERFLOOR RACEWAYS,

the specification of which was filed on November 3, 2003, and amended by a preliminary amendment filed on that same date.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by the preliminary amendment mentioned above.

I acknowledge the duty to disclose information that is material to patentability as defined in 37 C.F.R. § 1.56.

I verily believe the original patent to be wholly or partially inoperative because I claimed less than I had the right to claim in the patent. One error being relied upon as the basis for reissue is the previous omission of claims 30-40, which are presented in the preliminary amendment mentioned above. I understand that at least claim 30 is broader than any claim in the original patent.

For example, claim 30 is broader than claim 12 of the original patent. Claim 30 recites "first and second raceway panels disposed adjacent to one another in the concrete floor." Claim 30 does not recite that "each raceway panel" has "a top wall, a bottom wall and a pair of side walls defining an interior passage," such as is recited in claim 12.

All errors being corrected in this application up to the time of filing of this declaration arose without any deceptive intention on my part. I believe that all errors being corrected in this application up to the time of filing of this declaration arose without any deceptive intention on the part of any other applicant.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
